

COMPANY PROFILE
CORPORATE CONSULTANCY & BUSINESS SERVICES

About Top On-Solution

Corporate consultancy and business support under one professional service platform.

Who We Are

Top On-Solution provides consultancy and practical support for company setup, regulatory compliance, tax, VAT, customs, trade, audit, sourcing and other business requirements.

Our Approach

We organize requirements, documentation and follow-up around the client's business activity, aligned with applicable laws, rules and authority procedures.

Our Commitment

Clear communication, organized documentation, professional coordination and responsive client support throughout the assignment.

Mission & Vision

What we aim to deliver to our clients.

Our Mission

To provide practical, reliable and well-organized consultancy services that help businesses complete regulatory, compliance and operational requirements with greater clarity and efficiency.

Our Vision

To be a trusted business consultancy partner for companies seeking professional support across registration, licensing, tax, VAT, customs, trade and related business services.

Recurring compliance and reporting support.

Company Audit

Consultancy and coordination support for company audit requirements and related documentation.

VAT & Tax Return with Audit

Support for preparation, submission and audit-related requirements.

Personal Tax Return with Audit

Personal income tax return support and related audit documentation where applicable.

Budget, Trade Policy & Business Advisory

Support for businesses dealing with changing regulatory and commercial requirements.

Yearly Budget & Trade Policy

Support for reviewing applicable yearly changes and business requirements.

Regulatory Consultancy

Business documentation, authority correspondence and compliance support.

Operational Advisory

Commercial and operational coordination based on client requirements.

Sourcing, Dispute Settlement & Special Assignments

Additional support beyond standard registration and compliance services.

Sourcing

Product and supplier sourcing assistance based on client requirements.

Dispute Settlement

Consultancy and coordination support for company-related disputes and administrative matters.

Special Consultancy

Flexible support for other company, regulatory, documentation or business requirements.

Why Choose Top On-Solution?

A practical service model built around client requirements.

One Service Platform

Multiple business, regulatory and compliance requirements can be coordinated through one consultancy platform.

Professional Documentation

Clear, organized and requirement-based documentation.

Business-Focused Advice

Support structured around the client's actual business activity.

Regulatory Coordination

Support across registration, licensing, tax, VAT, customs and authority-facing processes.

Responsive Communication

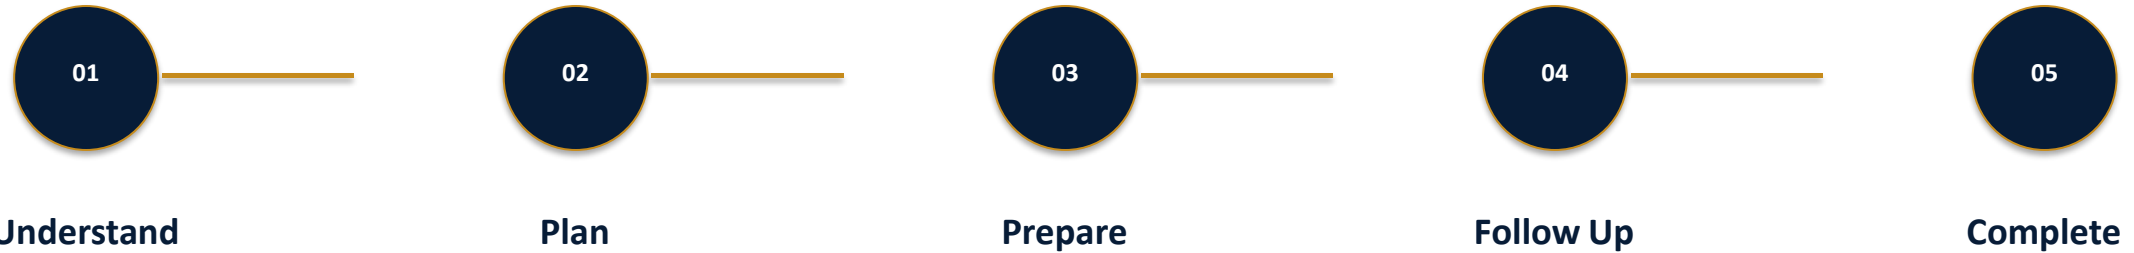

Clear updates on requirements, documents and progress.

Flexible Engagement

Single assignment or ongoing consultancy support.

Our Working Process

Simple, transparent and structured.

Review the requirement and current status. Identify documents, approvals and steps. Organize applications and supporting documents. Coordinate required follow-up and status checks. Deliver the outcome and relevant records.

Who We Support

Services can be tailored to different business stages and sectors.

New Businesses

Company setup, registration, trade license, TIN/BIN and initial requirements.

Importers & Exporters

IRC/ERC, customs, VAT, NBR, sourcing and trade support.

Manufacturing & Industrial

Bond, VAT, customs, licences and regulatory support.

Established Companies

Renewals, audit, returns, tax/VAT and ongoing consultancy.

Investors

BIDA and investment-related documentation and process support.

Individuals

Personal tax return and selected business-related requirements.

Our Service Principles

The standards we apply to client assignments.

- | | | |
|----|------------------------|--|
| 01 | Clarity | Define the requirement, documents and next steps. |
| 02 | Compliance | Work within applicable laws, rules and authority procedures. |
| 03 | Confidentiality | Handle client information and business documents with care. |
| 04 | Coordination | Keep documentation, communication and follow-up organized. |
| 05 | Responsiveness | Keep clients informed about requirements and progress. |
